

Dr. Anup Ghosh

Dr. Ghosh joined as Assistant Professor in the Department of Chemical Sciences in March, 2024. Prior to join the Bose Institute he worked as DST Inspire Faculty in the S. N. Bose National Centre for Basic Sciences. His research area focuses on the structural and dynamical investigations of Chemical/Biomolecules/Nano materials by employing ultrafast spectroscopic tools.

Dr. Amit Kumar Paul

Dr. Paul joined as Associate Professor in the Department of Chemical Sciences in May, 2024. Prior to join the Bose Institute he worked as Associate Professor in the National Institute of Technology Meghalaya. His research area focuses on Theoretical and Computational Chemistry, particularly in electronic structure calculations and reaction dynamics

Dr. Utpal Nandi

Dr. Nandi joined as Associate Professor in the Department of Chemical Sciences in April, 2024. Prior to join the Bose Institute he worked as Senior Scientist in the CSIR-Indian Institute of Integrative Medicine, Jammu. His research area focuses on Pharmacokinetics and Toxicology, particularly CYP regulation in disease states.

Dr. Biswanath Maity

Dr. Maity has joined as Professor in the Department of Biological Sciences in June, 2024. He was previously working as ‘Associate Professor’ at the Centre of Biomedical Research (CBMR), Lucknow. His research focus is to understand how G-protein signaling modulators can be targeted to attenuate stress-induced cardiac and liver pathologies.
